The conference facilitates participants worldwide dealing with knowledge sharing on the future of ICT technologies within the agri-food and bio-resource sectors. EFITA conferences include various topical areas (e.g. remote sensing, robotics, farm management information systems, data mining and analysis, as well as ICT-agri education and professional issues), special sessions, and technical tours to exceptional paradigms of ICT applications in real-life primary production.

Looking forward to welcoming you there...

The Conference Chairman  
Prof. **Dionysis Bochtis**
